Based on table above, the work culture's indicator that has biggest in luence on work per ormance was discipline that in luenced work per ormance or 46%. The lowest in luence was shown by easibility and reasonableness or 0.48%. There are lots of things that have to be done to increase the in luence of each indicator on work per ormance. According to the result of research conducted by Aldri and Muhammad Ali (2011), it suggested that the positive work culture that has strong in luence on attitude and action can push the employees to serve the public based on their unction, responsibility, job, and their authority well.

In addition, the superior and subordinate relationship is as stated by Hunik (2011) has an impact on the meaning o \square justice in the culture o \square the organization by the members o \square the organization. Justice in an organization is divided into two types: organizational procedural and distributive justice. Procedural justice is the perceived \square airness o \square the procedures used \square or the distribution and running o \square the organization. While distributive justice is the perceived \square airness in the distribution o \square resources and rewards derived \square rom the organization.

This is also consistent with the view Vasthi Nughroho (in Aldri and Muhammad Ali (2011), justice is essentially treats a person or other parties in accordance with their rights. That the rights o∏ every person are recognized and treated in accordance with the dignity and values, which are equal, which equal rights and obligations, without distinction o□ race, ancestry, and religion. in light o□ justice on the opinion o□ Faturochman (Aldri and Muhammad Ali (2011) a justice that essentially has a ∏ormulation with three levels o outcomes, procedures, and systems. justice relating to the outcome is olten relerred to as distributive justice. distributive justice onten be used to analyze government policies to the people. Then, procedural justice related to various processes and treatment o∏ people who are involved in the process. The di

ference between distributive and procedural justice lays in the nature o∏ the ∏ormal regulation, the decision making, the interpersonal treatment, and the psychological ∏actor. The nature o∏ the ∏ormal regulation is usually ∏ormal and can be accepted as something natural. In the other hand, the explanation and the interpersonal treatment can in luence a fect the procedure so it looks airer. The group values are; respect □or others, trust, impartiality on a person/a group. In addition, the □airness o□ the system is closely related to the existing structure with criteria; (1) loyal; (2) not biased; (3) organized by accurate data and in ormation; (4) high correct ability; (5) representative; and (6) based on ethic and morale.

ability to communicate with other colleagues, physical appearances, courtesy, and their competency. This \square inding is also supported by Manik (2012) who said that the communication intensity between the colleagues in workplace is one o \square the key \square actors in building a positive work culture. It might in \square luence the understanding o \square work culture among the apparatus in the workplace.

The research showed that the level on apparatus discipline was high because on their obedience on work hour. It also suggested that their obedience was closely related with the amount on local incentive received. Furthermore, Aldri (2015) ound that there were many sources on work culture that can incluence apparatus performance, they were; (1) globalization; (2) bureaucrat experiences in the past; (3) dynamic interaction among colleagues; (4) ormal education; (5) leadership style on the leaders in work place; and (6) the regional and vice regional leader.

In general, this research showed that <code>i</code><code>_</code> positive work culture is implemented in the work place, the apparatus per<code>_</code>ormance can be improved <code>e</code><code>_</code>fectively. By attending and leaving the workplace on-time, there will be many works could be done <code>e</code><code>_</code>ficiently based on SOP. The <code>e</code><code>_</code>fort to improve the positive work culture is relevant with the vision and the mission <code>o</code><code>_</code> Department Transportation, Communications and <code>In</code><code>_</code>ormation Technology <code>o</code><code>_</code> West Sumatra Province. Department Transportation, Communications and <code>In</code><code>_</code>ormation Technology <code>o</code><code>_</code> West Sumatra Province is one <code>o</code><code>_</code> vital departments because it provides the basic needs <code>o</code><code>_</code> public, transportation and <code>in</code><code>_</code>ormation. Transportation sector is the vein o human activity meanwhile <code>in</code><code>_</code>ormation sector is the basic to take every decision. Thus, the improvement <code>o</code><code>_</code> apparatus <code>per</code><code>_</code>ormance based on positive work culture is important and must be done <code>e</code><code>_</code>fectively and <code>e</code><code>_</code>ficiently in order to show a good image <code>o</code><code>_</code> Sumatera Barat Government in regional and national level.

The analysis o[] apparatus per[]ormance based on work culture must be done continuously in order to improve the reliability o[] the apparatus so they can []ace any obstacles and explore every resource that can lead to the increase o[] local government revenue []rom transportation and in[]ormation sectors. The component o[] positive work culture can open more opportunity and access []or the public to the social wel[]are. So, positive work culture can in[]luence the values o[] apparatus per[]ormance. The outcome o[] their per[]ormance can be the []eedback or input []or the next improvement individually or in groups. The understanding about this condition bene[]its the top management to determine the goal, the path, the plan, even the career development (recruitment, training, promotion, and reward) o[] the organization to be in line with the times.
